

A COFFEE AND COCOA RESEARCH JOURNAL

About the Journal

Pelita Perkebunan, Coffee and Cocoa Research Journal (CCRJ): ISSN:0215-0212; E-ISSN:2406-9574

Since its establishment in 1911, Indonesian Coffee and Cocoa Research Institute (ICCRI) formerly Besoekisch Proefstation, had published its research findings through a journal call Mededelingen van het Besoekisch Proefstation. Between 1948-1981 the research institute was under the supervision of Bogor Research Institute for Estate Crops, and published its research findings through De Bergcultures which was later changed to Menara Perkebunan.

Since the institute held the national mandate for coffee and cocoa commodities, and due to rapid increase in the research findings, ICCRI published its first issue of **Pelita Perkebunan** journal in April 1985.

Pelita Perkebunan is an international journal providing rapid publication of peer-reviewed articles concerned with coffee and cocoa commodities based on the aspects of agronomy, plant breeding, soil science, crop protection, postharvest technology and social economy. Papers dealing with result of original research on the above aspects are welcomed with no page charge.

Pelita Perkebunan is managed by Indonesian Coffee and Cocoa Research Institute (ICCRI), which publish the research findings not only for coffee and cocoa but also other commodities relevant with coffee and cocoa, i.e. shade trees, intercrops and wind breakers.

Pelita Perkebunan is published in a single volume every year. Each volume consists of three issues, published in April, August and December.

Welcome to <http://www.ccrjournal.com>, the online submission and editorial system of the **Pelita Perkebunan**.

Manuscripts must be directed to the Secretariat of the Journal at the following address:

Editor-in-Chief,

Pelita Perkebunan (Coffee and Cocoa Research Journal)
Indonesian Coffee and Cocoa Research Institute
